Objective:

Highly motivated and detail-oriented junior frontend developer seeking an entry-level/internship position to kick-start a career in web development. Eager to apply my knowledge, skills, and passion for coding to contribute to the development of visually appealing and user-friendly websites and applications.

Skills:

- Proficient in HTML5, CSS3, and JavaScript;
- Understanding of responsive web design principles;
- Experience with front-end frameworks (Bootstrap);
- Knowledge of version control systems (Git, Github);
- Familiarity with RESTful APIs and JSON;
- Problem-solving and debugging skills;
- Excellent communication and teamwork abilities;
- Currently studying JavaScript libraries and frameworks (React).

Self-Learning Experience:

- Dedicated over 500 hours to self-study web development through online resources, tutorials, and documentation;
- Developed a solid understanding of front-end technologies and concepts through hands-on projects and practice;
- Continuously expanded knowledge by staying up-to-date with the latest trends and advancements in web development.

Technical Skills:

- HTML5, CSS3, JavaScript;
- Bootstrap;
- Git, GitHub;
- Balsamiq and Figma for Web Design;
- Responsive Design;
- UX/UI Principles;
- React (currently learning).

Soft Skills:

- Self-driven and motivated learner;
- Problem-solving and analytical thinking;
- Attention to detail and commitment to delivering high-quality work;
- Excellent time management and ability to meet deadlines;
- Effective communication and collaboration skills;
- Adaptability to new technologies and eagerness to learn new concepts.
